Parent Conferences

Parents, please find the conference confirmation form in today's Monday Folder. Please contact me if you are not able to keep this appointment.

Fun Run

Thursday, November 7th
2nd & 3rd graders at 10:25am

Curriculum this Week

Math

We continue with word problems this week. Students will use 2 digit addition and subtraction to solve a variety of word problems. We teach students to find the Partner and Total in the word problem, so that they will know how to solve the problem.

Partner plus Partner equals Total $P + P = T$

Total minus Partner equals Partner $T - P = P$

Literacy

We will conclude our study of the informational book Off to Class by Susan Hughes this week. Students will research, compare, and contrast a chosen school with Farmington Woods. Then students will write a booklet about what they learned called "The Most Important Thing about School".

We **will not** have a new Letterland Spelling Unit this week due to our Junior Achievement lessons and the Teacher Workday on Friday. Lesson 7 will be next week.

Social Studies

We continue with our How We Organize Ourselves Unit of Inquiry this week to learn more about our economy. We are fortunate to have the Junior Achievement Volunteers to teach lessons on the economy in our community. They will teach each second grade class on Tuesday and Wednesday mornings this week.
