Wednesday, January 29: Teacher Workday

Monday, February 10: Report Cards go home

Monday, February 24 at 2:15: Parents Invited to our class Weather Watchers Presentations in the Cafeteria (more information coming soon)

Curriculum this Week

Math

We began 3 digit addition last week, and students will be using place value drawings, expanded form, and number line strategies to solve these problems. Remember that video links for each of these methods are located in the Math resources tab on my website. These videos were created to help parents understand what their child is learning in math, and for you to help your child review what they learned in class.

Literacy

Last week, students wrote their final performance task to complete Module 2. It was a narrative in which they imagined they were a paleontologist who found a fossil. This week we begin Module 3 about The Secret World of Plants and Pollinators. Students will use text features in nonfiction texts to learn more about plants this week.

We will review Letterland Units 12, 13, 14 this week and have the Tri Weekly test this Friday.

Science

Students will learn about the Sun, and how it gives us heat and light.
