### Important Papers Going Home Today

- \*Interim Reports
- \* mClass reading reports
- \*2<sup>nd</sup> Grade Standards for Quarter 1
- \* Field Trip Permission Form for Trader Joe's Walking Field Trip

## Curriculum this Week

### Math

We begin 2 digit addition strategies this week. We teach strategies that are based on place value skills, and expect students to show their work as they use these strategies to solve addition problems.

We will practice place value drawing strategy, the expanded form strategy, and the number line.

### Literacy

We will continue our study of The Invisible Boy this week. Students are learning to include details from the text in their written responses. Students are using the provided workbooks and Google Classroom assignments on computers to complete their work.

### Science

We begin our study of Sound in the How the World Works Unit. Students learn about the relationship of sound to vibrations.

### Trader Joe's Walking Field Trip

Our class will go on this field trip on Wednesday morning November 13. This is a trip to coordinate with our economic study of supply and demand, producers and consumers and global trade. I can use many chaperones, since we walk up to the shopping center, tour the store, and then walk back to school. If you are interested in helping me that day, **and you are a cleared volunteer, please email me** that you can be a chaperone. Please do not plan to bring siblings along on the trip. We leave the school at about 9:30 and return to school around 11:30, in time for our regular outside PE and lunch in the cafeteria.
